# BlotterPad
(Bean There, Done That)

Ever had difficulties managing your trades, wasted hours finding a particular trade, misplaced your notes, missed useful informations and messages, and lost huge amounts of money?
We present you the path-breaking platform to revolutionize the way you trade, and communicate with your fellow traders. So fasten your seat belts AND let's make some money with:

BlotterPad

Blotterpad is a perfect tool for a team of traders who want to view records of shares bought and sold by various team members.

BlotterView

- View all your trades here with all the associated details
- Search and sort the trades as per your requirements
- Export data to their local devices
- Now all trades are at your fingertips

ScratchPad

- Write down your notes here. You can also delete and update notes.
- Retrieve your notes once you login.
- So no more paper hassle and no more short term memory loss.

TradeTalks

- Your personalized chatbox to receive and send important updates.
- Fast and secure group broadcasting message service .
- Never miss an important tip that can help you make $$$

Entitlements

- Allow selective trading with the help of entitlements.
- Three level hierarchy to limit access to restricted trades.
- Don't worry about Jack accessing the Master' trades.

Real Time Refresh

- Get the latest trade information in BlotterView in real time.
- TradeTalks provide Instant messaging thus no delay in messaging.
- Gone are the days when you had to face the lag.
